

Taiwan Emergency Medicine Residency Observership Project (TEMROP)

Connecting Emergency Medicine Residents Worldwide

The **Taiwan Emergency Medicine Residency Observership Project (TEMROP)**, initiated by the **Taiwan Society of Emergency Medicine (TSEM)**, is dedicated to fostering global exchange, broadening the international perspectives of emergency medicine residents, and enhancing Taiwan's presence in the global emergency medicine community.

TEMROP provides an accessible, centralized information platform for international emergency medicine residents interested in observership opportunities in Taiwan. By consolidating application details from participating hospitals, the program streamlines the application process and lowers entry barriers for international applicants. In collaboration with leading emergency medicine organizations worldwide, the program is actively promoted at major international conferences, encouraging residents from around the globe to explore clinical and educational experiences in Taiwan.

PROGRAM HIGHLIGHTS

- **Global Collaboration:** Partnering with international emergency medicine societies to enhance bilateral relationship.
 - **Centralized Information Portal:** A single platform offering comprehensive, up-to-date observership information from hospitals across Taiwan.
 - **Flexible Scheduling:** Standard observership duration is four weeks (one month), with options to tailor experiences across multiple hospitals.
 - **Dedicated Support:** Participating hospitals provide detailed application guidelines, course plans, fee structures, and contact points, as well as on-site support for international residents.
-

APPLICATION PROCESS

International residents interested in TEMROP are required to:

- Submit the necessary application documents directly to the selected hospital's contact person within the designated application period.
- Assume full financial responsibility for all costs related to the observership.
- Maintain proactive communication with the selected hospital and comply with all relevant regulations in Taiwan and the hospital's internal policies.

At the conclusion of the observership, participants are encouraged to provide feedback and a reflection report to the host hospital and TSEM to support the ongoing refinement and development of the program.

EASY ACCESS TO INFORMATION

A **dedicated TEMROP section** is available on the TSEM English website, featuring:

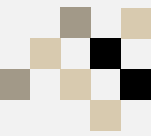

- Program overview
- Detailed hospital profiles and application instructions
- Maps and location guides for participating hospitals

Residents planning to rotate across multiple emergency departments on a weekly basis are welcome to contact the TEMROP coordination office (Ms. Yusi Weng: ysweng@sem.org.tw) for additional support.

國際急診住院醫師台灣見習計畫介紹

本計畫由台灣急診醫學會主導，旨在促進全球急診住院醫師的多元交流與開拓國際視野，並提升台灣急診醫學的國際能見度。透過建立國外急診住院醫師來台灣見習訓練的資訊平台，整合全台灣參與醫院的申請資訊，提供單一訊息查詢窗口，降低國外急診住院醫師取得來台交流申請資訊的門檻，並藉由與國外急診醫學組織合作，於國際醫學會議向全球急診社群宣傳本計畫，吸引更多國外急診住院醫師來台見習，促進雙邊教育與臨床交流。

參與本計畫需為急診住院醫師 RRC 評鑑 A 級醫院，提供並即時更新國外見習申請相關資訊，包括見習課程規劃(四周或一個月為原則)、申請流程、所需文件、費用及聯絡窗口，並提供國外申請醫師來台相關協助。

申請來台見習的國外住院醫師，依照各醫院規定，於期限內備妥並提交相關申請文件給訓練醫院聯絡窗口，須自行負擔見習期間的費用，並主動與訓練醫院保持聯繫，遵守台灣相關法規及醫院內部規範，於見習結束後，申請醫師應撰寫訓練心得及建議，回饋給訓練醫院及急診醫學會，以利未來持續優化此計畫。

本計畫於急診醫學會英文官網首頁設置專屬連結，提供完整的計畫資訊與各醫院申請說明。專區內容包括計畫中英文簡介、參與醫院的詳細介紹與申請指引，以及各醫院地理位置圖，協助申請者清楚掌握所有相關資訊，順利完成申請流程。如申請醫師擬以週為單位至多間急診見習，可聯繫急診醫學會聯絡窗口翁小姐 (ysweng@sem.org.tw)，將提供進一步協助。
