

Symposium 14 : 跨團隊合作傷口品質照護：從急診科到社區

**Collaboration to Ensure Quality-Driven Wound Care: A Pathway from
Emergency Department to Community**

時間：2023 年 7 月 8 日(六) 09:00~10:00

會議室：402AB 會議廳

主持人：孫仁堂醫師(亞東醫院)、劉淵元醫師(高雄榮總)

09:00~09:30 照護聯網：延伸急診守備範圍

Let's work on connected care to bridge future care

主講人：黃明源醫師(台北馬偕醫院)

09:30~09:40 病人從急診離開後怎麼了

Patient management for better wound care quality

主講人：黃莉雯專科護理師(台北馬偕醫院)

09:40~10:00 綜合討論

與談人：林育賢醫師(新光醫院整形外科)、孫仁堂醫師(亞東醫院)、
黃明源醫師(台北馬偕醫院)、黃莉雯專科護理師(台北馬偕醫院)、
楊卉庭專科護理師(愛立康有限公司)

課程簡介

● **照護聯網：延伸急診守備範圍**

The healthcare industry is undergoing a major transformation with the increasing adoption of digital technologies. Connected care is a game-changing technology that has the potential to greatly improve the efficiency and effectiveness of healthcare delivery, as well as improve patient outcomes.

The topic will cover:

- ◆ Introduction to connected care and its applications in healthcare.
- ◆ Understanding the different technologies that enable connected care.
- ◆ Exploring the benefits of connected care for patients and healthcare providers.
- ◆ Identifying the best practices for implementing connected care in healthcare organizations.
- ◆ Analyzing case studies of successful implementation of connected care.

● **病人從急診離開後怎麼了**

清洗清創與敷料使用，在急診我們把關了傷口處理的第一步，但傷口的復原情形，更攸關的是病患返家自行換藥的過程、適當性等自我照護方式。

藉由這個機會分享我們在急診治療後，透過數位工具來整合實體與線上照護傷口照護，過程中發現的契機與挑戰，並回溯提供我們在急診治療的改善機制。
